

General

The Gulfstream IV delivers a superior flight experience that sets the standard by which all other aircraft are measured. Its legendary performance and reliability have made it the preferred aircraft for private jet travelers worldwide.

This large-cabin jet seats up to 13 passengers and is configured with forward and aft salons which can be separated by a solid partition for enhanced privacy. For long-range missions the cabin can be converted with sleeping berths for six. Passengers are able to access a large library of digital entertainment from an onboard media server to view movies, TV shows, and other content via their individual iDevices or on the 19" cabin video monitors. Staying connected worldwide is quick and easy using the new Satellite Telephone system along with High-speed internet connectivity via the GoGo Biz network.
