

General

The Learjet 31A represents the optimized balance of performance, technology, and comfort in the light jet classe.

With its advanced wing design the 31A can climb to altitudes up to 51,000 feet and cruise above almost all weather and other traffic. It's excellent low-speed handling qualities give the 31A the flexibility to take-off and land at most regional airports.

The Learjet 31A is the most versatile and cost-effective jet flying today.

Specifications

Passengers	Typical	Max.
	6	7
